BROWNE FOUND THREE IN BED

Then Called White to His Room and Offered "Something in It" for a Lorimer Vote

WHITE SOLD THE "STORY"

Admits He Contracted with the Chicago Tribune for "Scoop" on Scandals

CHICAGO, June 15.—The defense of Lee O'Neil Browne, charged with bribery in Senator Lorimer's election, will be that Lorimer and Browne are the victims of a gigantic political plot, of which Representative White, author of confession No. 1, was the tool.

This defense will probably result in Senator Lorimer taking the witness stand for the defense.

The proposed line of defense was indicated today when the cross examination of White was resumed. W. S. Forrest, chief counsel for Browne, asked White why he picked the Tribune to sell his story to.

White said he was advised to do so by friends.

"Wasn't it because the Tribune was hostile to Lorimer and Browne?" asked Forrest.

"No," answered White.

Sold the Story

"Didn't Browne tell you," said Forrest, "that the reason the Tribune opposed him was because he had defeated the \$16,000,000 bond issue for city improvements? Didn't he tell you that the Deneen supporters tried to destroy him politically because he defeated the \$20,000,000 bond issue for a canal which would have been built by the state and then be taken over by private concerns?"

To all these questions White answered "No."

White was then asked who were present when he signed the contract with the Tribune for his bribery story. He said that Vice President James Keely and Alfred Austrin, both of the Tribune, and a private detective were present. Forrest read a letter to the jury written on May 29th to the News Democrat of Belleville, Ill., in which White said he voted for Lorimer because he thought it was his duty.

Would Vote for Anything

When White was asked to relate his first meeting with Browne at the St. Nicholas Hotel at Springfield, he said: "The Yarbrough boys were with me when Browne entered my room at the hotel and all three of us were in one bed. Browne said that he wanted to see me alone and asked me to come with him to his room. When we got to his room, Browne asked me, 'Would you vote for a republican?' I said, 'Yes, that I would vote for anything.' Then he asked me to vote for Lorimer, saying, 'Keep this under your hat for I am a little suspicious of a little place called Joliet. There will be something in it for you and it will be no chicken feed either.'"

White was asked if the above story was invented.

He emphatically answered: "No."

Would Have Taken \$5

White denied that he saw Lorimer on the floor of the house May 19, after the voting for United States senator. White said he met Browne, who asked him, "What's troubling you?"

"I told him," said White, "that I wanted to know how much I was going to get for voting for Lorimer. He told me \$1,000 in ready cash."

"Browne cautioned me again to keep the matter dark and repeated his suspicions about the 'little place in Joliet.'"

White said he told Browne that he had no fear of Joliet and would have voted for Lorimer for \$5 or \$10.

GLIDDENITES OFF ON SECOND DAY

LOUISVILLE, Ky., June 15.—The pacemaker for the second day's run in the Glidden tour of 2,851 miles left here at 6:15 this morning, followed three-quarters of an hour later by Ray McNamara, driver of Premier No. 6. Dal Lewis was the pacemaker. The other cars got off at three minute intervals from the Seelbach hotel.

Nineteen of the twenty-five cars held perfect scores before today's start, but owing to the condition of the roads it is predicted a number of these will get penalization marks. Today's schedule called for 192 miles and provided for the fording of numerous creeks.

Mrs. Frank Hedrick, MNIVALE, Ky., died this morning from injuries received when her horse became frightened at an automobile following the Glidden tour near Frankfort.

THINK PRISONER MISSING JANITOR

CINCINNATI, O., June 15.—The police of Newport, Ky., are holding a man who says his name is Rosario Granger, on suspicion that he is Joseph Wendling, missing janitor of St. John's church and parochial school at Louisville, wanted for the murder of Alma Kellner.

RAILROADS BEGIN RETRENCHMENTS

All New Work will Be Stopped According to the New Orders Issued

ST. PAUL LAYS OFF 1000 MEN

Local Improvements May Be Affected by Roads' Effort to Bluff the Government

ST. PAUL, Minn., June 15.—The policy of retrenchment threatened by railroads is being put in force. Orders have been issued from headquarters in St. Paul and Chicago to stop practically all new construction work in the northwest. So far it has meant the laying off of about 10,000 laborers in this section. How far it will affect employees generally, has not yet developed, but in the face of the growing volume of business which the railroads will have to handle it is not expected that the plan of curtailment will be carried much beyond new work.

St. Paul Lays Off 1200

The Northern Pacific has given orders to lay off 2500 men, the Great Northern 3,000 and the Northwestern 600. The Chicago, Milwaukee and St. Paul laid off between 1,000 and 1,200 in the first part of June in the northern district.

The retrenchment plan is not confined to this section of the country. It was learned that the Santa Fe has laid off 4,000 and the Rock Island 1500. Figures in regard to other roads could not be obtained.

Howard Elliott, president of the Northern Pacific, gives four reasons for this action of the roads:

First, steady increase of taxes;

Second, increases in pay demanded by the men and in the price of materials;

Third, faster and better service demanded by the people;

Fourth, the very great power given state and national railroad commissions to name rates and the tendency to reduce the latter.

Retrenchment Unnecessary

ST. PAUL, Minn., June 15.—"There is absolutely no need of retrenchment by western railroads," said Louis W. Hill, president of the Great Northern road, to a representative of the United Press today.

"The west and particularly northwest is in prosperous circumstances; business is multiplying and while it is a little early to talk of crops, everything points to a bumper production."

"The Great Northern has inaugurated no campaign of retrenchment, and from present indications will not do so. The plan of the Great Northern for extensions in central Oregon will be carried through."

"The inspiration for the stories of a dearth of business in the west comes from New York. Because they are deep in the slough of depression in the east and cannot see the light ahead and are morbidly pessimistic of the future is no reason that the west should follow suit."

SAYS WAR MADE TEDDY PRESIDENT

WEST POINT, N. Y., June 15.—The example of Col. Roosevelt as one of the presidents whom the fortunes of war had boosted into the White house, was held up to the graduating class of the military academy today by Secretary of War Dickinson in his commencement address.

"The war of the revolution," he said, "elevated to the presidency Washington; that of 1812, Jackson; that with Mexico, Taylor; that between the states, Grant; and that with Spain, Roosevelt."

LINDSEY NAMED BY MR. PINCHOT

DENVER, Colo., June 15.—Judge Ben B. Lindsey, author of "The Beast and the Jungle," today announced that Gifford Pinchot had appointed him head of the Colorado branch of the national conservation commission, of which Pinchot is the president.

Lindsey's appointment is notable inasmuch as he sent Henry E. Doherty, head of the "power trust," to jail for three days for contempt of court. Doherty is regarded as Pinchot's bitterest enemy in Colorado.

BRADLEY WON'T TALK OF DR. COOK

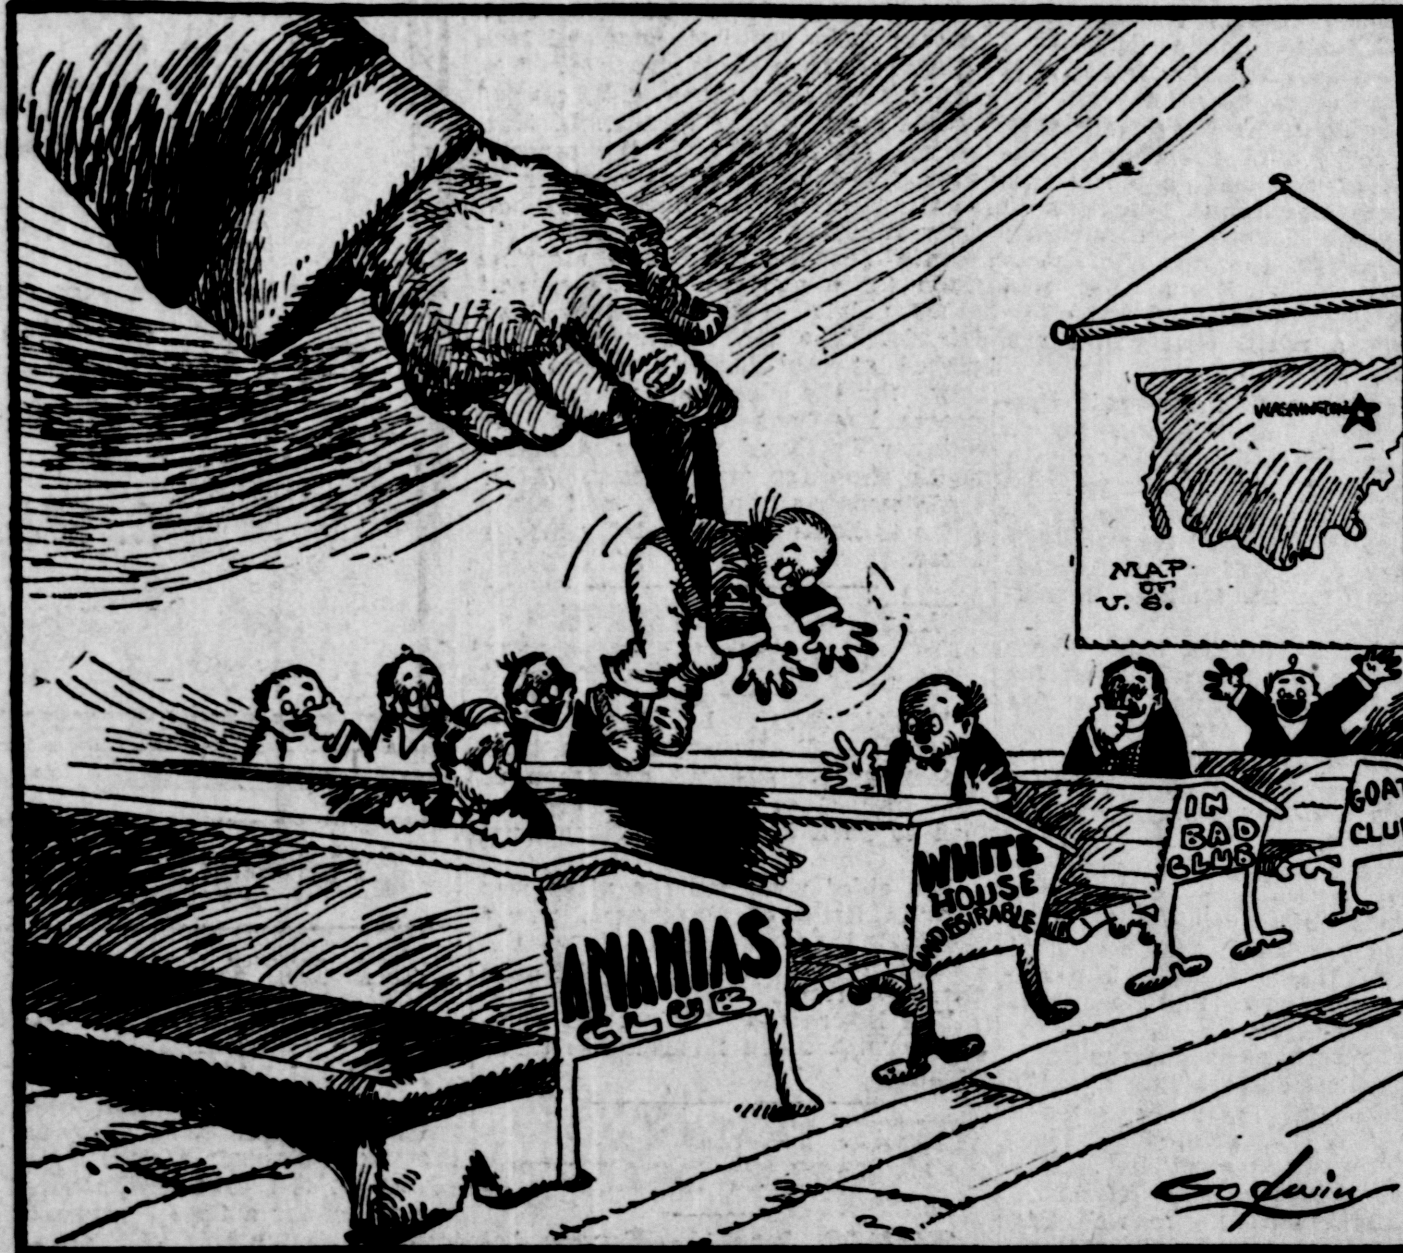

CHICAGO, June 15.—James R. Bradley, of New York, the millionaire who financed the Cook expedition to discover the north pole, today refused to discuss the Cook incident except to say:

"The Dr. Cook north pole venture is a closed incident so far as I am concerned, and I do not care to even think of it, let alone talk of it."

Bradley is here with his wife on his way to Colorado for a six months big game hunt.

OHLE'S CENTENNIAL VALPARAISO, Chile, June 15.—The centennial celebration of Chile's independence from Spain began here with a great international naval parade.

THE WHITE HOUSE CLASS IS STILL GROWING

ISN'T TEDDY THE WISE POLITICIAN

He Even Goes Into the Stoke Hole to Prove to the Stokers He Is "One of Them"

ON BOARD THE KAISERIN AUGUSTE VICTORIA, via wireless to London, June 15.—Everyone of the several thousand passengers aboard the huge Kaiserin Auguste Victoria has now had a chance to see and hear Col. Theodore Roosevelt, the "big show" of the vessel's western voyage. Today the colonel completed his round of the ship by a visit to the stoke hold where he grasped the grimy hands of rice stokers and chatted with them as though they were the crew of his own private yacht.

The visit to the stoke hold was one of the most interesting events of the trip and the stokers did their best to show their appreciation of the honor.

Those who were on the off shift, tidied themselves up as much as possible but Roosevelt seemed even more anxious to shake the hands of those who were actually engaged in feeding the huge furnaces. As one of these laid down his shovel, Roosevelt grabbed it up and showed that he knew something about the knack of stoking by "sifting" several shovels of coal over the glowing bed of coals.

The stokers cheered the colonel heartily when they saw that he was "one of them." The captain of the ship accompanied the colonel on his rounds of the stoke hold.

After his visit below, Roosevelt held a formal reception on deck for the first and second class passengers. This reception with his visit to the stoke hold on Sunday cleaned up the colonel's reception list and now all aboard ship can claim personal acquaintance with their distinguished fellow traveler.

After the reception Roosevelt went to his room where a number of wireless messages awaited his perusal. Most of these were from friends in America who had first called their messages to London. Some of them concerned plans for the colonel's home coming reception while others were merely greetings.

U. S. Gets First Wireless

NEW YORK, June 15.—The United Press today received from its staff correspondent aboard the Kaiserin Auguste Victoria, the first direct wireless message regarding the movements of Col Roosevelt that has been received in this country. The message was a duplicate of that the correspondent had previously sent by way of wireless to London.

From now on the Kaiserin will be in direct wireless communication with New York.

DAHL WAS NOT SPEEDING AUTO

MADISON, Wis., June 15.—(Special.)—State Treasurer Andrew H. Dahl proved in municipal court this morning he did not violate the auto speed ordinance. His son, Victor Dahl, on the stand testified the speedometer showed car was going between eight and nine miles an hour. The court said the officer exercised wrong judgment and the matter was dismissed.

FEW IN THE BALANCE

In the list of graduates of the local high school published last night the success of a few depends on marks to be made next week in the final examinations.

KANSAS AVIATOR IS UNFORTUNATE

High Winds and Engine Are Cause of Long Stop in Middle of \$5,000 Flight Today

KANSAS CITY, Mo., June 15.—J. C. Mars, driving a Curtiss biplane in an attempted flight from Topeka, Kansas to Kansas City today struck high winds, engine trouble and was nearly thrown into the Kaw river before finally reaching Midland, a small town about half way between Topeka and Kansas City where he is now held indefinitely on account of the high wind. The flight which was started at 5:10 this morning, may have to be abandoned.

Mars was caught in a squall just as he was nearing Midland and in landing jarred his machine badly. The radiator was also leaking. In making a landing at Newman town, one of his planes were broken when the machine struck in a corn field, but this was repaired with supports cut with a pocket knife from the limb of a tree. In the early part of his flight Mars reached a height of 1200 feet, but striking adverse currents was forced to drop to within 100 feet of the ground. There is no limit to the number of stops Mars can make to win the \$5,000 prize offered, as the only stipulations are that he fly from Lawrence, Kansas, to Kansas City. Mars considered this too short a flight and chose to start at Topeka.

The stop at Midland was the third made in the thirty miles traveled. At noon Mars' total elapsed time was over seven hours and there was apparently but slight chance of him getting started again very soon.

The best time made on the flight was between Newman and Midland, the distance of 15 miles being covered in 24 minutes.

PEOPLE LEAVING BLOODY COUNTRY

NEW ORLEANS, La., June 15.—Conditions are such in western provinces of Nicaragua that people are leaving in droves, even to some of the followers of President Madriz, according to statements of eight members of the crew which took the steamer Venus to Nicaragua for the Madriz faction, who returned here today from Colon.

TWELVE AUSTRIANS DIE IN A FIRE

NIAGARA FALLS, N. Y., June 15.—Twelve men, all Austrians, employed on the power development work on the Canadian side of the river, perished in a fire which destroyed four shacks at Falls View, Ont., early today. Three others, a man, a woman and a child, are in the general hospital at Niagara Falls, Ont., suffering from fatal burns.

SHERMAN'S IOWA TRIP OFF UTICA, N. Y., June 15.—Word has been received here that Vice President Sherman has abandoned his proposed trip to Iowa City to speak today to the graduating class of the Iowa state university on account of the illness of Mrs. Sherman in Washington.

WOMAN IS FREE CINCINNATI, Ohio, June 15.—The lunacy warrant against Mrs. Jeanette Ford, the woman in the Warriner case, was dismissed. Mrs. Ford is now free from the meshes of the law.

MATT RUESGEN Confessed Murderer of Foreman John H. Studier of the Wisconsin Pearl Button Works Who is Awaiting Sentence at La Crosse County Jail.

LA CROSSE, Wis., June 15.—(Special.)—Matt Ruesgen, confessed murderer of Foreman John H. Studier of the Wisconsin Pearl Button Works, who is awaiting sentence at La Crosse County Jail, was today released from the La Crosse County Jail.

KNOX TELLS OF PLANS FOR PEACE

America's Policy of Promotion of the Dove Being Extended, Says the Secretary

PHILADELPHIA, Pa., June 15.—Secretary of State Knox sounded the keynote of American diplomacy under the present administration in his speech today at the commencement exercises of the university of Pennsylvania.

It was the most important utterance concerning the American treatment of foreign affairs since he became secretary.

Secretary Knox set forth what had been accomplished under administrations and pointed out how, under President Taft, the traditional foreign policy of the United States so established had been carried to greater lengths. The predominant note of American diplomacy is the promotion of peace, both by the adoption of this method in the settlement of existing disputes, and by taking the lead in the movement of enlarging the powers of the international court at The Hague. In this latter connection, Secretary Knox made the significant statement that the foreign powers had gone so far in indicating formally their approval of his plans for establishing an international court of arbitral justice that the success of this enterprise was practically assured.

As an evidence of the progress of the United States in the cause of arbitration, he pointed out the cases now in process of adjustment, the New Foundland fisheries arbitration at The Hague, the Orinoco Steamship company's claim against Venezuela, which is to be adjusted by the same method; the submission of the Alsop claim against Chile to King George and the adoption of arbitration as a method of settling disputes which may arise over the use of waterways along the Canadian boundary. He also pointed out as an evidence of the desire of the United States to promote peace in neighboring countries the American administration of customs in Santo Domingo, the efforts to assist the republic of Liberia and a proposal, now under consideration, of straightening out the financial tangle in Honduras by means of a loan.

MOTOR BOATS BURNED; FIREMEN ARE ACCUSED

SAYS GOVERNMENT WILL BUY ROADS

Prediction Is Made Today by President Ripley of the Santa Fe System

NEW LAWS CONFISCATORY

Rather than Have Government Take Management Out of Hands Road Heads will Sell

CHICAGO, June 15.—E. P. Ripley, president of the Santa Fe system, predicts in an interview with the United Press that within five years the United States government would own every line of railroad within its domain. He believes that the measure for government control will be introduced in congress at the initiative of the government for the purchase of all the railway systems as an economic necessity. How much money will be required for the purchase Ripley refuses even to estimate but says that the present capitalization of the railroad systems is not their total value. If the railroads are asked to name their price, Ripley says they will ask more in nearly every case than the capitalization at present.

"Within five years, certainly not more than 10 years," said Ripley. "The United States government will own all railroads within its borders. The rate regulation bill being considered at Washington is the step which prefaces this final result."

The attitude taken by President Ripley and other western railroad men is that the railroads can no longer endure the radical legislation which they claim takes the management of their property out of their hands and it is stated to be the consensus of opinion of western railroad men that the inevitable consequence of recently enacted legislation, or that now pending, will be the retirement of private owners from the control of railroad lines.

With the powers given by the new legislation, railroad men assert, government officials may compel railroad to operate at a loss.

They can only foresee long and expensive litigation to protect their property rights and rather than incur waste in time and money and risk destruction of right in the storm of demands for radical action against carriers they are willing to sell to the government.

VACATE INJUNCTION HELD BY WRIGHTS

NEW YORK, June 15.—Foreign aviators may be reckoned with in flights in this country shortly, as a result of the vacation of the temporary injunctions obtained by the Wright company against the Herington-Curtiss Company and Louis Paulhan, by the United States court of appeals, pending trial of the suits.

It will not be necessary for aviators to now put up bonds, which it is expected will mean many entries for the numerous prize flights planned for the near future.

Captain Baldwin said: "If it was not for the Wrights we would not be flying today. The government should pension them and give their patents over to the public."

The dismissal of the injunction does not mean the end of the Wright action against Curtiss. That will be tried on its merits as a suit for damages for the infringement of the basic patents the Wrights claim upon all aer

SIG. FERRANTE'S BIG BAND COMING

La Crosse Chautauqua a
Whirlwind of Music;
Seven Organizations
to Appear

It has been said that "music hath charms to soothe the savage breast." It also hath charms for the most cultivated tastes. There is nothing that makes so universal appeal, that finds so universal response.

The people of La Crosse are soon to be favored with the choicest expressions of the leaders along this line. The Chautauqua programs in former years have been musical; but this season the management is surpassing itself. Every day will be a big musical day and the offerings cover a range that will reach every ear.

The coming of Sig. Pasquale Ferrante with his Royal Italian Guards Band is an event of no little concern Sig. Ferrante is not only one of the most eccentric but one of the greatest of the world's band masters. His sway over his band of performers as well as over his audience is truly marvelous.

Everybody loves a big band. There is something in its productions for all. Whether the musical education is complete or has been entirely neglected, the band reaches the heart the same. Ferrante's band abounds in soloists and has a numerous instrumentation.

Everything within the scope of band possibilities is presented. The classics are rendered with that nicety and precision that command the ear of the critics, while the rollicking effusions find response in the hearts of all.

But it is perhaps in the rendition of the heroic numbers that the big band excels. The very air is made to quake before the tremendous blast and the echoes are awakened. The man in the audience feels his blood tingle and is moved to rise and cheer. It is here that the real climaxes are reached.

It is only possible to secure attractions like this by the system of co-operation and widespread operation invented and perfected by the Vawter System. For the individual Chautauqua the cost would be prohibitive.

Then there is the Kirksmith Orchestra. This is a sextette of artists unexcelled in the realms of music. Six winsome girls, full of life and musical genius, they present not only a striking and pleasing picture but programs of rich merit.

Each variety of musical offering enters into their program. Solos, duets, trios, quartets, both vocal and instrumental, in rich and rare profusion, follow each other in splendid arrangement. This company carries the greatest lady flute player in America.

The Lee-Fullenwider-Lathrop company is a genuine concession to critical taste. The Misses Lee and Lathrop are products of the famous Sterns Conservatory of Berlin and won distinction in the concert halls of Europe. Fullenwider is a master with the king of instruments, the violin.

The Fox orchestra is a family of musical prodigies. Wherever they have appeared they have pleased royally. The instrumentation is large and varied making many happy combinations possible.

The Lady Entertainers do what their name implies and do it well. A Royal Hungarian Orchestra will fill one day's musical programs and H. Ruthven MacDonald, Canada's leading baritone, will be here to delight the people again, returned in response to universal demand. And whether he sings "Elijah," "The Creation" or "Bibbity Bob," he will carry away the hearts of the people.

After reviewing the above lineup of musical talent it must be conceded that the La Crosse Chautauqua, beginning June 23rd, will certainly be filled to the brim with the choicest that the musical world has to offer.

Because she commenced to apply E. Z. stove polish to her stove while it contained fire, Viva Clark, of Desota vicinity, witnessed a conflagration. She narrowly escaped receiving burns.

Miss Vera Officer is clerking at the Felix store.

Miss Maude Turning has closed her school at Ferryville.

Miss Margaret Graves visited Miss Nettie Anderson at Soldiers Grove.

R. H. Drake had business at Soldiers Grove.

Miss Ada Graves visited Sparta relatives last evening.

Wilkinson & Wagner of Readstown have sold their meat market there to A. C. Anderson, who assumed charge last week.

Because they both had birthdays the first of this week, Mr. and Mrs. Geo. Turner of this vicinity were given a surprise party Sunday.

John Nelson visited at home.

Chas. Mosier of Viola visited here.

Fay Dougherty of Viola had business here.

Arthur Jensen of Sparta looked after business matters here.

Verne Slack visited at Coon Valley.

Dr. Will Gorsline of Chicago is here looking after his farm.

After an absence of thirteen years in New Hampshire, Irvin Graham is visiting his parents, Mr. and Mrs. Lamech Graham of this vicinity.

Thomas Ommonson of Glendive, Mont., visited relatives near Springville.

Mrs. Wm. Frazier of Sparta is visiting her daughter, Mrs. H. L. Reed, near here.

Misses Lillian and Elsie Thiel have gone to Ipswich, S. D., to join their parents.

Mr. and Mrs. Christ Larson, who went to Canada from this vicinity, have returned because "Wisconsin still looks good" to them.

MINNESOTA AND THE NORTHWEST

NICHOLAS SOMMER MARRIED AT LANSING

LANSING, Ia., June 15.—At the immaculate Conception church on Tuesday morning at six o'clock, occurred the marriage of Mr. Nicholas Sommer of La Crosse, Wis., to Miss Eleanor Lape of this city. Arthur Lake was best man and Miss Minnie Lake was bridesmaid. The bride wore champagne silk, carried cream roses. Very Rev. G. L. Haxmeier officiated. After the ceremony a wedding breakfast was served at the home of the bride's mother. Only relatives were present. The couple departed on the morning train for a visit at Milwaukee and other points with relatives and friends. The bride has been employed at the Turner's button factory for the last six years. The groom has been employed at the Skinner Brothers' wagon and blacksmith shop for many years. After their wedding trip, they will settle down to house keeping at the bride's home.

SENATOR CUMMINS TO BE CHAIRMAN

DES MOINES, Ia., June 15.—Senator A. B. Cummins has been chosen as temporary chairman of the Iowa state Republican convention to be held in Des Moines Aug. 3rd.

His chief rival for the place was Charles Grilik of Davenport, newly nominated for congress from the second Iowa district at the republican primaries.

The insurgents control the committee with seven members to three regulars.

WHITE TELLS OF BRIBE DEALINGS

CHICAGO, June 15.—Former Assemblyman White in the trial of Lee O'Neill Brown charged with bribery today was on the witness stand. Many letters from Brown were offered in evidence to show familiarity and that money passed between them.

CANDIDATES OUT WITH THEIR PAPERS

A number of the candidates for county offices are having their nomination papers circulated. Up to this time only republican candidates have started the circulation of the papers, no one having come out as yet for nomination on the democratic ticket. Under the law the papers must be filed 30 days before the primaries, which makes it necessary to have them filed by August 6.

ROBERT RAY HEADS THE "LIT" CLUB

The "Lit" club's last meeting of the year was held at the high school last night, Myron Locke being admitted, and the following officers being elected for the next semester: President—Robert Ray.

Vice president—Herbert Moss.

Secretary—Ray Keeler.

Treasurer—Ed. Stavrum.

WISCONSIN NEWS

FOND DU LAC FIRE; SEVEN OVERCOME

FOND DU LAC, Wis., June 15.—A hot iron which dropped from the anvil in a blacksmith shop on the first floor through a quantity of excelsior in the basement, started a fire which for a time threatened the complete destruction of the plant of the Longdin-Brugger company, which manufactures automobile tops.

The fumes were so intense that Chief Doll and six firemen were overcome before the flames were subdued.

TITUS STILL VERY WEAK

MADISON, Wis., June 15.—Assistant Attorney General A. C. Titus, whose attack of illness abruptly halted his campaign for the republican nomination for attorney general, is slowly regaining his strength and expects to be out of the house in a few days. He is still so weak as to incline Mrs. Titus to discourage telephone calls for Mr. Titus.

MASONS IN SESION

MILWAUKEE, Wis., June 15.—The sixty-sixth annual communication of the grand lodge, Free and Accepted Masons of Wisconsin, is in session here, 650 delegates being present.

YALE MAN CALLED

NEW HAVEN, Conn., June 15.—Dr. W. A. Granville of the mathematics department of Yale university, has received a call to be president at Gettysburg, Ky. He left today for Gettysburg to look over the ground and friends say that he will accept. Dr. and Mrs. Granville came to Yale from Kansas.

Now Is The Time To Paint

Spring has come early this year and the summer-like days furnish a remarkable opportunity to do your season's painting now before the arrival of flies and gnats or the summer rains. When you come to select your paint, remember that you are not to judge it by price per gallon, but by surface covered and length of service. The principle cost of painting is in the labor. How foolish it is then to waste expensive labor by putting on cheap paint. How foolish to select a hand mixture when you can get machine made paint more thoroughly mixed and ready for the brush, insuring economy in spreading, ease in applying and gradual wear.

Such paint can be had by specifying Lowe Brothers "High Standard" for which we have the agency—a

make that stands the severest tests of paint efficiency both practical and theoretical. Just like it—the best for its purpose—are all the other Lowe Brothers' products.

"Little Blue Flag" Varnish, paint, durable and elastic. "The lotions," the "High Standard" of flat finishes, for interior walls, ceilings, wood and metal work, is soft and restful color. Washable, fadeless, satisfactory, durable. Varnish, durable and stain in one coat, reproducing the colors and effects of hardwood. For floors, woodwork, furniture.

It will pay you doubly to use these products, first, because less is required for the job, and second, because they look better and wear longer than cheaper preparations.

DESERT WASHINGTON TO GREET "TEDDY"

WASHINGTON, D. C., June 15.—The national capital will be a sadly deserted village on Saturday, June 18.

Cabinet officers, division chiefs and a host of mere government clerks will gather at the metropolis to welcome their seven year boss. Prominent among those who will go to greet Col. Roosevelt are Herbert Knox Smith, commissioner of corporations; Lawrence O. Murray, comptroller of the currency; Beekman Winthrop, assistant secretary of the navy—all of whom were members of the famous tennis cabinet of cherished memory.

Secretary of the Navy Meyer and Secretary of Agriculture Wilson, both of whom are hold overs from the Roosevelt cabinet, and Captain Archibald Butt, who is military aide to President Taft, just as he was to the former executive, will go as the personal representatives of the president. Captain Butt will carry a personal letter of greeting. Commissioner of Immigration O'Keefe and Charles P. Neill, commissioner of labor, will also be on hand. Perhaps the most striking evidence of the

personal popularity of Col. Roosevelt is in the number of applications made by clerks for leave to go to New York.

Strangely at least half of the applicants are women. There are the prospects of the attendance of many congressmen also—particularly as the house insurgents plan to be among those on the dock when the steamer arrives.

President Taft will be at Villa Nov, Pa., on Saturday, delivering a commencement address.

VATICAN EXPLAINS

BERLIN, June 15.—In the Prussian diet it is announced that the vatican had made a satisfactory explanation of the recent encyclical letter in which a large part of the German people thought they saw a slap at protestants and at German religious reformers including Martin Luther. The encyclical was in connection with the coming tercentennial celebration of the canonizing of Cardinal Borromeo and it was explained today that none of the statements were intended as a reflection on the German people.

Make Your "Meat" Shredded Wheat

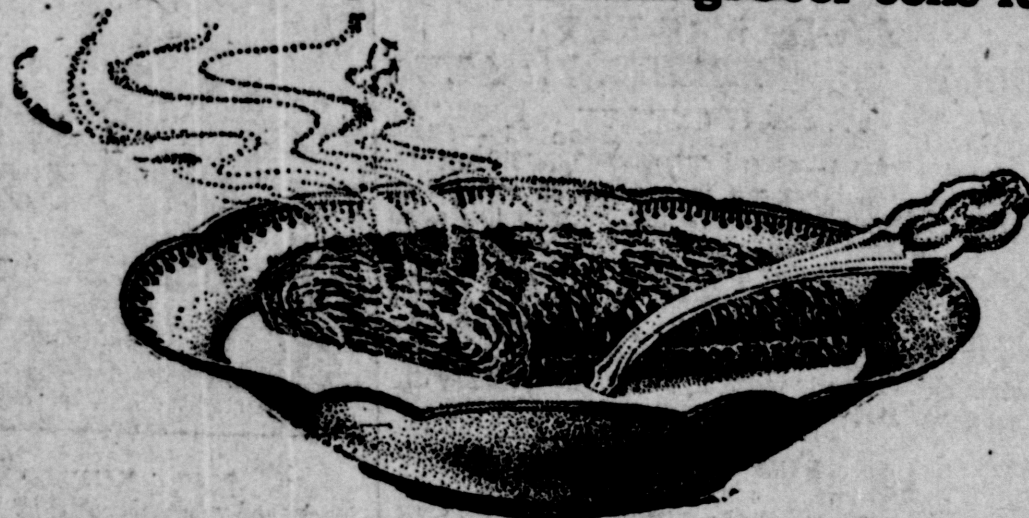

These are troublous times for the man who eats food.

The Government is after the beef trust, the poultry trust and "the cold storage egg". But while congress, state legislatures and grand juries are "investigating" the high cost of living, your meat bills and grocery bills are soaring higher and higher.

The food problem is an easy one if you know

SHREDDED WHEAT

It contains more real body-building nutriment than meat or eggs, is more easily digested and costs much less. Always clean—always pure—always the same price. Your grocer sells it.

Shredded Wheat Biscuit is made of the whole wheat, steam-cooked, shredded and baked in the cleanest, finest food factory in the world. It is ready-cooked, ready-to-serve. Two Shredded Wheat Biscuits heated in the oven to restore crispness, and eaten with a little hot milk, and salted or sweetened to suit the taste, will supply all the energy needed for a half-day's work. If you like it for breakfast, you will like it for any meal in combination with vegetables, baked apples, sliced bananas, stewed prunes or other fruits.

A GREAT ACHIEVEMENT

"The flight of Hamilton through
the air from New York to Philadel-
phia and return," says the St. Paul
Dispatch, "is one of the great mile-
stones which time and advancement
rear to mark their ages by. It is
a little difficult to realize the extent
and bearing of this achievement.
Everything moves so rapidly in these
days of wonderful accomplishment
that we actually fail to 'take in'
their full significance. The Mun-
chausen-like predictions of ten years
ago, become the common news ev-
ents of today. It is within the re-
collection of the younger generation
when the 'conquest of the air' was
discussed as one of the iridescent
dreams of science, but before that
generation shall have reached mid-
dle age aerial transportation meth-
ods, in the light of every-day de-
velopments, will have revolutioniz-
ed the world. At the rate of pro-
gression, the step between the feat
of Leander in swimming the Helles-
pont and that of Hamilton in flying
between New York and Philadelphia
is no greater than that which will
mark the difference up to the aerial
achievement possible to the coming
decade of years. It is a wonderful
age we live in."

A PAINFUL CONFESSION

"Pre-eminently and incomparably
the right man for the place," will be
the general verdict on the conven-
tion's selection of William Duncan
Connor for chairman of the state
committee created as the preliminary
step to practical organization work in
the impending campaign.
"Mr. Connor has a positive genius
for precisely that sort of work and
he likes it. That is his specialty.
Even those who have been his oppo-
nents will grant him that."
When the editorial writer of the
Milwaukee Sentinel gave birth to the
above "appreciation" of Mr. Connor,
he must have suffered the pains of
dipping the quill in his own blood.
What he says may be true. The basis
of his faith in the "positive genius"
of Mr. Connor is the success with
which that gentleman as "half-

breed" state chairman in a La Fol-
lette campaign romped to victory
over the corpses of the Sentinel and
the old Eleventh Story league of
which he now has the honor to be
leader. But Mr. Connor won them,
not because he had a "positive gen-
ius," but because he was at that time
fighting for the rights of the public
from which he has since deserted.
He is now leader of the then van-
quished army, and is opposed by his
former victorious hosts. He will find
the battle a very different affair.

SPREADING THE IDEA

Following is the headline display-
ed in an Oregon newspaper over the
story of the Eleventh Story Milwau-
kee "Convention."

INSURGENTS UNDER

BAN IN WISCONSIN

Republican Convention Is All For
Taft.

Candidates Are Not Named

Policy of Opponents of County Op-
tion Prevails

State Issue Is Avoided

Speakers Lay Stress on Party Loyalty
and Insurgent Movement Is
Arraigned Bitterly—Foes of
La Follette There.

Below are two telegrams exchange-
d between Chairman Levi Bancroft
of the Eleventh Story "Convention"
and President Taft:

"THE WHITE HOUSE, Washing-
ton, D. C., June 9, 1910.—Hon. L.
H. Bancroft, Chairman Republican
State Convention, Convention Hall,
Milwaukee, Wis.: I am much gratified
to receive the congratulations and
assurances of confidence and support
contained in your telegram which
has just been received, and ask that
you will express to the Wisconsin
republicans assembled in convention
my hearty thanks.

"WILLIAM H. TAFT."

"THE HON. WILLIAM H. TAFT,
President of the United States,
White House, Washington, D. C.
I am instructed by a resolution
unanimously adopted by Wisconsin
republicans assembled in a conven-
tion consisting of more than 1,000
delegates, elected from every county
in the state, to extend to you
your hearty congratulations upon
your splendid and loyal efforts to
redeem the pledges of the party
made to the people in the national
republican platform, upon which you
were elected, and to assure you of
the implicit and undiminished con-
fidence and continued support of
the republican party in Wisconsin,
which in 1908 gave to the national
republican platform and to the rep-
ublican candidates nominated
thereon, a plurality of nearly 100,
000 votes.

"L. H. BANCROFT,
Chairman,
Republican State Convention."

The Milwaukee "convention" was
called without party authority by
representatives of special interests
styling themselves "Republicans,"
and did not invite or consider a
single member of the overwhelmingly
dominant faction of the party. It
was an organization without party
law, but while President Taft talks
sturdily of "regularity," he hastens
to recognize this "irregular" gath-
ering as the organization with which
he will affiliate himself in Wiscon-
sin. The headline quoted above
shows how the incident is being
turned to scatter the impression
throughout the United States that a
regular republican convention in
the state of Wisconsin is opposed to
Senator La Follette. Had "dele-
gates" to this "convention" been
elected in the usual way, the La
Follette men would have controlled
it by an overwhelming majority.

qua is to be a force for good in the

SPOTLIGHTS

SOMETHING FOR ALL

There is something in the Flint
entertainment for every one to en-
joy. From scientific lecture to hi-
larious climax, there is an appeal to
all classes and conditions, and from
the oldest to the youngest, the wis-
est to the most foolish, all find
something to please their own par-
ticular tastes. There is scientific truth
and there is uproarious fun. There
is no plot to follow, and although
the great underlying truth of hypo-
notism is a perpetual mystery, the
child who understands nothing of
these things can sit and laugh at
the funny antics. There is singing
and dancing and talking and rough-
and-tumble antics, at the same time
that there are thrilling demonstra-
tions and philosophic observations.
People go to enjoy the scientific lec-
ture and find themselves laughing
harder than they have ever laughed
in their lives at the funny antics
of the subjects, and people go to
laugh and find themselves becoming
interested in the scientific aspects
even to the point of going out to be-
come students of psychology. It is
this wide diversity that has given
the Flint entertainments the popu-
larity that they enjoy. At the La
Crosse theater tonight and every
night this week.

OPERATE UNDER HYPNOTISM

That difficult surgical operation
will some day be possible while the
subject is under the influence of
hypnotism is the claim put forth by
Dr. E. Pelham, the noted English
scientist who is attracting much at-
tention at the Majestic theater this
week. The operation will be per-
fected bloodless. Dr. Pelham is able
by his methods of hypnotism to
make the blood in the veins retreat
into another part of the body so to
speak. It sounds strange and unbel-
ievable but the skeptical are invit-
ed to witness a performance at the
theater and see the feat performed.
At every show Pelham takes a young
man and inducing sleep or placing
him in a state of hypnosis, causes
him to sit down, in the meantime
placing the bared arm of the sub-
ject across the backs of two chairs.
He then puts the arm into a state
of rigid catalepsy while the other
parts of the body are perfectly limp.
To show that the arm is rigid, the
doctor, weighing 130 pounds, stands
upon it. At his suggestion the blood
can be seen leaving the hand and
the arm, which grows as pale as
wax, takes on the deathly pallor of
a dead person. While in this con-
dition, the doctor claims that the
arm could be operated upon, with-
out loss of blood. At the hypnotist's
command the blood can be seen re-
turning to the hand which again
takes on the rosy hued appearance
of a live member. It is a strictly
scientific experiment and one which
no other hypnotist has ever per-
formed in this city. Dr. Pelham, a
short time ago, interested several
noted surgeons of New York City,
who stated that the work was at
least twenty-five years in advance of
that of any other mesmerist. They
were deeply interested in the work
and willingly acknowledged that it
might some day be a factor on the
operating table.

Dr. Pelham is planning to give a
private demonstration of this pow-
er before a committee of local doc-
tors and surgeons and newspaper
men, some day during the week. It
is expected that the medical frater-
nity of the city will be deeply in-
terested in the work.

Worst Yet to Come

"How's your birthday party com-
ing on, Tommie?" "Finely. I've
asked all the boys and girls and
they've all promised to come. All
I've got to do now is to ask mamma
if I can have it."—Life.

Force, at the La Crosse Theater this week.

Starts With D and Ends With N
There is a word, a little word,
That's often used by angry men
When they to vent their wrath are
stirred;

It starts with D and ends with N.

When provocation has occurred,
All need a safety valve. What
then?

It lets off harmless steam, this word
That starts with D and ends with
N

But down in Devon, 'tis averred,
Your rage you must a prisoner
pen.

They jump upon the little word
That starts with D and ends with
N.

The beaks their loins with virtue
gird.
Whenever it comes within their
ken,

And fine the wretch who says the
word
That starts with D and ends with
N.

O Devon! Land of cream and curd,
Thank Heaven my residential den
Lies not in you, who bar the word
That starts with D and ends with
N.

I'd soon be broke, if I—abound!
Were fined on each occasion when
I said the soul-relieving word
That starts with D and ends with
N.—London Truth.

Getting Passe
Frederick Townsend Martin re-
cently said at a "musical morning"
at the Waldorf-Astoria:

"That was truly an embarrassing
remark. It was as embarrassing as
the Shah of Persia's remark to poor
King Leopold.

"When the Shah visited the cha-
teau of Laeken Leopold received
him in state. About the King in
the throne room of the chateau all
the highest ladies of the court were
gathered—an aristocratic but with-
ered group. Gems flashed in gray
locks, diamonds glittered on gar-
landed hands and pearls encircled baggy
throats.

"The Shah looked at this group
of noble ladies in his grave, intent
way. Then he said to the King—
his French was excellent:

"Your harem?"

"Leopold, in his embarrassment,
made no reply, and the Shah, taking
his silence for consent, smiled and
observed:

"You will soon have to renew it,
sire."—New York Tribune.

The Dentist's Joke

At a recent dinner of the Au-
thors' club in London to Owen Sea-
man, the editor of Punch, Walter
Emanuel, another member of the
staff of Punch, referred to the fact
that the man with the largest sense
of humor he had ever struck was
an Englishman—a dentist. He went
to him after suffering long with a
toothache. He refused to have gas,
and the dentist pulled out a tooth,
leaving him writhing in pain, and
took the tooth to the window, where
he laughed quite heartily. He groan-
ed, "What's the joke?" "Wrong
tooth," said the dentist.—Buffalo
Commercial.

Too Literal

"Do you ever think, George,
dear," said she, and her voice was
soft and low, as befitting the perfect
beauty of the night—"do you ever
think how closely true happiness is
allied with tears?"

"I don't believe I ever do," ad-
mitted George, "but I will if you
like."

"Yes," she went on, gazing up in-
to his face. "When one is truly and
wholly happy, George, dear, there is

"And I am in the dark, also,"
said Grumbach, twirling his hat.
Carmichael walked about, study-
ing the many curios. Occasionally
Grumbach wiped his forehead, and,
absently, the inner rim of his hat.
Perhaps the three of them waited
twenty minutes; then the chancellor
came in. He bowed cordially and
drew chairs about his desk. He placed
Grumbach in the full glare of the
lamp. Carmichael and the sub-chief
were in the half-light. The chan-
cellor was last to seat himself.

"Herr Grumbach," said the chan-
cellor, in a mild tone, "I should like
to see your papers."

"My passports, your Excellency."

"Yes."
Grumbach laid them on the desk
imperturbably. The chancellor
struck the bell. His valet answered
immediately.

"Send Breunner, the head garden-
er, at once."

"He is in the anteroom, Excel-
lency."

"Tell him to come in."

The chancellor shot a piercing
glance at Grumbach, but the latter
was studying the mural decorations.
Carmichael sat tight in his chair,
curious to learn what it was all
about. Breunner entered. He was
thin and partly bald and quite fifty.
"Breunner, her highness will need
many flowers tomorrow. See to it
that they are cut in the morning."

"It shall be done, Excellency."

The chancellor turned to the pas-
s-ports.

"There is only one question, Herr
Grumbach. It says here that you

but little to divide laughter from
tears."

"Well, that's a fact," assented
George, dear, "but I never thought
of it before. After all, there's noth-
ing but the nose."—Ideas.

Wrong Anyhow

Youngboy—What! not dancing,
old man? Let me secure you a waltz
with Miss Debut.

Oldboy—She's too pretty. My wife
would be jealous.

Youngboy—Then take Miss An-
tique. She's ugly enough.

Oldboy—In that case my wife

ring the society of such a creature to
her own.—Ally Sloper's.

Hard to Explain Away

The witty Champ Clark, discuss-
ing the latest political scandal, said:
"Some of the testimony was bad,
very bad—in fact, unanswerable.
You couldn't get around it. It was
like the remark of the new parlor
maid."

"This girl was a greenhorn. She
didn't know the pretty daughter was
engaged to be married, and when the
pretty daughter's intended called af-
ter a week's absence from town this
is what the parlor maid said to him:

"Miss Minnie, you're wantin'?

Well, I don't know whether she's in
or not. But if you're the young gen-
tleman that was here last night till
half past twelve and got caught
fuggin' and kissin' her in the parlor,
why, she ain't in to you no more,
and never will be!"—Cincinnati En-
quirer.

The Outlook

"You were very cold last evening,"
phoned the young man to the girl he
had called on. Then he added anx-
iously, "What's the outlook for to-
night?"

"Fair and warmer tonight," came
the answer promptly.—Rocky Moun-
tain News.

Cost of Celebrating

Col. H. N. Renout, at the "Old
Guard" banquet at Delmonico's, told
an instructive story about summer
vacations.

"I said to a man the other day,"
he began, "Well, are you going to
send your wife to the seashore again
this summer?"

"No, sir, I'm not," said he, "I

Keep Your Hair
Free From Dust

(From Women's National Magazine)

"One expects to return from sum-
mer excursion, outing, picnic or long
trolley ride in a more or less dis-
heveled state. When a girl is so
tired, she does not feel like wash-
ing her head before retiring—nor
does she care to go to sleep with
dusty hair.

"Why not use a dry shampoo, and
escape all the bother and trouble
that accompany washing the hair?
Just mix four ounces of therox with
four ounces of powdered orris root.
Sprinkle a tablespoonful of this mix-
ture thinly upon the head; then
brush the powder thoroughly
through the hair. This treatment is
quick and easy, but it takes out all
dirt and dust and leaves the scalp
clean and comfortable.

"Therox keeps the hair light and
fluffy, and beautifully lustrous.
Brush your head two or three times
a week with this mixture and it will
make your hair fine, long and glos-
sy, for it stimulates its growth."

were a native of Bavaria before go-
ing to America. How long ago did
you leave Bavaria?"

"A good many years, your Excel-
lency." Grumbach inspected the la-
bel in his hat.

"You have, of course, retained
your Bavarian passport?"

Carmichael was now leaning for-
ward in his chair, deeply interested.
He saw that the chancellor was
watching Grumbach as a cat watches
a mouse-hole.

Grumbach brought forth a bulky
wallet. The edges of Bank of Eng-
land notes could be seen, of fat de-
nominations.

"Here it is, your Excellency; a
little ragged, but readable still."

The chancellor went over it care-
fully.

"Herr Captain, do you know this
companion?"

"We fought side by side in the
American war. I saw him irregularly
in his papers. I am rather astonish-
ed to see him here and not at the
police bureau, if any question has
arisen over his passports."

"Fought side by side," the chan-
cellor repeated thoughtfully. "Then
he is no stranger to you?"

"I do not say that. We were,
however, in the same cavalry, only
in different troops. Grumbach, you
have your honorable discharge with
you?"

Grumbach went into his wallet
still again. This document the
chancellor read with an interest for-
eign to the affair under his hand.
Presently he laughed softly. Why,
he could not readily have told.

"I am sorry, Herr Grumbach. All
this unnecessary trouble simply be-
cause of the word 'Bavaria'."

"No trouble at all, your Excellen-
cy," restoring his papers. "I have
seen the inside of a real palace, and
I never expected such an honor."

"How long will you be making
your visit?"

"Only a few days, your Excellen-
cy. Then I shall proceed to 'Ba-
varia'."

"Your excellency has no further
orders," said the head gardener
patiently.

"Good Heaven, Breunner, I had
forgotten all about you! There is
nothing more. Gentlemen, your
pardon for having detained you so
long. Herr Captain, you will re-
turn with me to the ball-room?"

"If your excellency will excuse
me, no. I am tired. I shall return
to the hotel with Herr Grumbach."

"As you please. Good night."
The three left the cabinet under
various emotions. The sub-chief
bowed himself off at the gates, and
Carmichael and Grumbach crossed
the Platz leisurely.

"How did you come by that Ba-
varian passport," asked Carmichael
abruptly.

stopped at No. 4 engine house on their way to the river, awakened the firemen and told them of the fire, but the boatmen say it was necessary to phone and call several times before the fire boys got on the job.

Hold Indignation Meeting
 As a result of this alleged neglect by the firemen, owners of the burned boats and others from the north side boating contingent, will hold an indignation meeting at 8 o'clock this evening at the home of Engineer A. Foster, 1603 Charles street, for the purpose of demanding an investigation by the fire and police commission of the action of the men at No. 4 station in refusing to turn out promptly. They say the boats might have been saved, had the firemen responded promptly when called, as there was a hydrant within a block of the scene of the fire.

The boats burned, with losses follow:

The Losers Sustained
 A. Foster, 1603 Charles street—Launch Alene F.; 21 feet long, 3 cylinder engine, 12 horse power; value, \$500.00; boathouse, value, \$125; skiff, value \$25. No insurance.

A. A. Hammersberg, 20 foot launch, 2 cylinder, 8 horse power engine; worth \$500; boathouse, worth \$60. No insurance.

Jos. Hirt—26 foot boat, three cylinder engine; valued at \$600; boathouse, valued at \$75. \$500 insurance.

John Mach—21 foot boat, 2 cylinder 8 horse power engine; valued at \$500.00; boathouse, valued at \$80.00. No insurance.

Andrew Nelson—19 foot boat, 2 cylinder 6 horse power engine; valued at \$600; boathouse, valued at \$60. No insurance.

Three Boats Saved
 Those who hurried to the scene saved the boats of N. Frey, Archie Mosher and Carl Rathke, by untying them and pushing them off and away from the sweep of the flames. Had it not been for this prompt action the entire "Q" Navy Yard would likely have been a mass of charred ruins this morning.

Large Reward Offered
 A. Foster, engineer on the "Q" was just returning from his "run" when notified of the fire. He is highly indignant over the alleged failure of the fire department to respond, and he is convinced that the fire is the work of incendiarism. He today advertises a reward of \$100 in cash for evidence which will lead to the conviction of any one responsible for the blaze, and has

called the indignation meeting for tonight at his home, when protest will be made on the alleged negligence of the fire department.

Only One Insured
 Of the five boats and houses burned only one, Joe Hirt, carried any insurance. Mr. Hirt considers himself extremely fortunate in this regard, as he only recently applied for the policy, and received it from the company last evening. The other losses, totaling nearly \$3,000 are total. All boats were entirely destroyed, with the exception of that owned by A. A. Hammersberg, which was badly damaged.

Planned on Picnic
 All of the boatowners who suffered from the fire are greatly stirred over the fire. Practically every boat owner on the north side was planning to attend the big picnic of the La Crosse Motorboat Club to be given in July said Mr. Foster. Investigation is being made to ascertain if anything was stolen from the launches or boathouses of those losers who were members of the Motorboat club, and if anything is found missing the club's reward of \$25.00 will be added to the \$100.00 offered by Mr. Foster, to apprehend the perpetrators.

Some of the owners of boats on the north side think the fire may have originated from spontaneous combustion or from overheated exhausts in some of the launches used during the evening, but Mr. Foster holds to the belief that the fire was incendiary.

MILWAUKEE TRAINS DELAYED BY WRECK

The morning trains from the east on the Milwaukee road were seriously delayed because of a big wreck on the Chicago division of the road, at the first station south of Milwaukee. Passenger train No. 1 due at 2:45 a. m. was over an hour late, and trains Nos. 15 and 3, due at 4:00 and 6:05 respectively, were about an hour late. The fast mail, No. 55, due at 10:45 o'clock this morning, was reported to be 35 minutes late.

PREPARE FOR THE CARNIVAL WEEK

Plan to Have Voting Contest to Elect Young Lady "Queen of the Carnival"

Plans for the North Side carnival which will be held on the North side streets from July 4 to 9 are progressing rapidly and the officers of the North Side Amusement Association are planning to make this the largest and the most successful carnival that has ever been held in the city. The Cosmopolitan Carnival Company which will show here is reported to be one of the best in the country. The company is showing at Waterloo, Ia., this week and will be at Red Wing the week before they show here. They will arrive here probably on Monday in the special train which conveys them about the country. The train consists of about 20 cars.

One of the pleasant features of the carnival will be the voting contest to elect a "queen of the carnival." The young lady will be selected

After the votes have been counted by a committee which will be selected for that purpose the winning young lady will be crowned queen of the carnival and will be presented with a diamond ring which will be purchased at one of the local stores.

The officers of the association are planning to have a wedding performed on the street Thursday evening, the couple who consent to the ceremony being presented with a substantial prize to start them off on a happily married career. In the meantime the officers are planning for the entertainment and the two young people who will consent to be married in this public manner.

**MEN ACCEPTED
 FORMER OFFER**

Through an error in information it was stated in The Tribune that the striking employees at the Listman mill returned to their work as the

result of a compromise with the company. The fact was that the man who went out accepted a proposition which had been authorized by Manager George M. Heath prior to the strike, and when he was still in ignorance of the fact that a strike sentiment existed. It was the same proposition made to all other departments of the mill as well as to those in the packing department.

LAVAKE-STRAUB WEDDING

A pretty and simple church wedding at the First Presbyterian church was that of Miss Helen Irene Lavake, daughter of Mr. and Mrs. T. A. Lavake, and Oscar William Straub. The church was beautifully decorated for the occasion with palms, ferns and potted flowers. At the appointed hour the bridal party entered the church, preceded by the flower girl, Harriet Lavake, a little cousin of the bride, carrying a basket of roses which she scattered and Carl Van Auker, who carried the ring, which was concealed in the heart of a beautiful rose. The bride entered with her father and with her attendants proceeded to the flower decked altar as Mrs. P. Cilly sang "O, Promise Me," accompanied by Prof. Packman on the organ. The Rev. D. C. Jones performed the ceremony. Miss Olga Straub, sister of the groom, was maid of honor and Miss Anne Kinnear was bridesmaid. Calvin Schwenker was best man, and Alfred Grams and Walter Herrington ushers. Following the ceremony was a reception, held at the home of the bride. The youthful bride looked charming in her pretty gown of white satin with a long tulle veil. She carried a shower bouquet of lilies of the valley and maiden hair ferns. Her only ornament was a necklace of amethysts and pearls, the gift of the groom. The maid of honor wore cream silk mull with hat to match. Her flowers were yellow roses. The bridesmaid wore a white Japanese silk and carried a bunch of pink roses and sweet peas. The going away gown of the bride was light grey with black hat.

The rooms were elaborately decorated, the parlor being in white and green, roses and smilax, asparagus ferns and palms being used effectively. The dining room was in pink. Tall vases of fancy wicker work filled with stalks of pink gladioli and green foliage and large vases of pink carnations added to the beauty of the room. Red carnations and roses were used in the punch room filling the air with sweet perfume.

Mrs. W. E. Sawyer and Mrs. E. J. Evans alternated with Mrs. F. C. Sutter and Mrs. D. G. MacMillan in serving salad and coffee, assisted by the Misses Helen and Ruth Vance. The Misses Agnes Vincent and Mable Bryant served the punch, assisted by Miss Helen Burke. Mrs. E. R. Burke had general charge of affairs. Mr. and Mrs. Straub left on an evening train for the east. Only intimate friends and relatives were present at the reception.

SALTZ-MERCIER NUPTIALS

At 7:30 last evening Miss Lillian M. Saltz, daughter of Mr. and Mrs. O. M. Saltz, and W. C. Mercier of Chicago were quietly married at St. Paul's Universalist church in the presence of a few immediate friends and relatives, by the Rev. J. S. Lowe, pastor of that church. After the ceremony the bridal party drove to the home of the bride's parents, 1020 South Fifth street, where a wedding supper was served, which was followed by a reception. Miss Sue Rosator was bridesmaid and Wenzel Hanus was best man. The bride is a popular and well known young woman, having been employed for some time as cashier at the Linker barber shop. The groom has been connected with the Carhill Coal company, but has now taken a position in Chicago. Mr. and Mrs. Mercier left for that city last evening.

BIRTHDAY PARTY

Mrs. C. Cox entertained at a birthday party yesterday in honor of her daughter Irene's seventh birthday. The afternoon was spent in games and a very pleasing program was enjoyed. ANOTHER KNOT IN DALZELL'S FIGHT

PITTSBURG, Pa., June 14.—Another knot was tied yesterday to the tangled fight of John Dalzell, henchman of "Uncle Joe" Cannon against threatened political extinction, when Judge Josiah Cohen, granted a temporary injunction restraining the county commissioners from certifying the nomination of Dalzell to the secretary of the commonwealth.

The injunction was granted on petition of Dr. Robt. J. Black, Dalzell's insurgent opponent who thus ties up the disposition of the contest until the court passes on his demand for a recount.

EXPECT WINNING FOOTBALL TEAM

High School Boys Hold Big Meeting and Are Enthusiastic Over the Prospects of Season

A meeting of all interested in football was held at the high school yesterday afternoon, Prof. Benezet, Captain Shirley and Ray Keeler speaking on the outlook for next fall. Mr. Benezet said that Jack Wilce, who is to coach, is one of the best coaches to be procured. His record at Madison is of the best and he was one of the most popular athletes at that institution. Besides being a member of the team, he is a member of a fraternity, stroke on the crew, forward on the basketball team, and a good track man. He can handle any kind of a team, and should turn out some record teams at the high school. Shirley and Keeler both spoke on the outlook, and said that it was the brightest in years. Captain Shirley is most optimistic, saying that he expects to have a team better than any yet. Twenty-five men turned out for the meeting, showing that even at this early date the men are displaying great interest in football.

JOHN HALVERSON
DIES FROM FALL"Uncle John," for Many
Years with Mons An-
derson Company,
Is Dead

John Halverson, one of the old residents of La Crosse and commonly known as "Uncle John," passed away at 7:30 o'clock last evening at his home, 602 South Fourth street, as the result of a fall down a cellar stairway, five days ago. At the time of the accident it was thought that the injuries were not serious, but owing to his advanced age, he never recovered from the effects.

Decedent was born in Norway, July 10, 1825. He came to this country when a young man and for nearly half a century was a resident of La Crosse. For many years he was connected with Mons Anderson Co. and had charge of the retail clothing department of that company in one of the main street store rooms of the Mons Anderson building, corner of Second and Main street. When the company went out of business Mr. Halverson retired from active business life. His wife died October 30, last, at the age of 84 years, as the result of asphyxiation, the aged couple being found at their home overcome from escaping gas from a coal stove. Since the death of his wife Mr. Halverson has lived alone. He is survived by one brother, Gilbert Halverson of La Crosse, and one sister, residing out of town. The funeral arrangements have not been decided upon.

RANDELL ACCUSES
TRUST CONGRESSMEN

WASHINGTON, D. C., June 15.—Representative Randall, democrat of Texas, caused a fierce war of words in the house when he attempted to cause the adoption of a resolution charging the members of the judiciary committee with receiving "gifts, favors, employment and compensation of great and pecuniary value" from corporations. Some time ago he introduced a resolution prohibiting congressmen from accepting gifts or employment from corporations. His second resolution charged that the committee had killed it on account of "personal intent" and demanded that the committee be discharged from further consideration of the measure.

Representatives Payne and Malby bitterly arraigned Randall who retorted, "the rules of the house prevent me from replying as I would elsewhere."

Speaker Cannon at length declared the resolution out of order. An appeal from the decision of the chair by Randall was lost by a vote of 16 to 119.

LYNCHING BEE
MADE FETE DAY

HOT SPRINGS, Ark., June 15.—What is regarded as the biggest event ever pulled off in Lincoln county is being celebrated today at Star City following the public lynching bee yesterday when practically every man, woman, child and dog in the county turned out to witness the public hanging of Will Hunter, a negro.

The plans of the lynchings were made known Monday and although Lincoln county has not a railroad nor even a telephone or telephone wire through it, the news spread through the entire population of the county and they flocked to Star City, many walking miles to be on hand. It was the first hanging, either legal or illegal in the county and was conducted in an orderly manner.

Hunter was accused of entering the home of Rosa Johnson, a resident of Star City.

JEROME IS TAKEN
TO REFORMATORY

While his sweetheart, Carrie Martinson, is serving a thirty days' sentence in the county jail for receiving stolen property, Frank Jerome is on his way to Green Bay, where he will spend eighteen months at the reformatory for burglary. A. F. Gruenhagen, a deputy from the reformatory, arrived in the city today and took Jerome to Green Bay. Jerome pleaded guilty to the charge of breaking into the store of the Fred Kroner Hardware company and stealing razors and silverware which he proposed to sell to obtain money with which to pay board for himself and his girl.

SWIM FOR BUTTONS
AT "Y" TOMORROW

The boys who learned to swim last week under the instruction of Prof. George Corsan and who were unable to participate in the swimming test at the Y. M. C. A. pool last Saturday, will be given an opportunity tomorrow afternoon after school. All the boys who are able to swim across the tank using the crawl stroke will receive the silver button which is offered for this purpose by the international committee of the association.

TAFT GIVES HISTORY
OF N. W. TERRITORY

MARIETTA, O., June 15.—Lauding the ordinance of 1787 which gave a government to the Northwest Territory, as the cause and effect of the adoption of the greatest instrument of fundamental law except the constitution of the United States, President Taft this afternoon delivered the principal address at the anniversary of the foundation of Marietta college in 1787.

Although the hotel at Colfax is as beautiful as any in America—although its rooms are furnished like those of a palace—although its baths are equal to those of Carlsbad—although its waters are as beneficial as those of Europe—although its table is without peer in the whole continent—rooms with board are as low as \$3.00 a day.

BUTCHERS SAY TRUST
HOLDS UP PRICES

NEW YORK, June 15.—The tariff on meats and trust methods in general, condemned by the United Master Butchers' association in their annual session at the Park Avenue hotel, will very likely be called to the attention of the national convention of butchers to be held in Chicago next month.

A resolution was adopted demanding the elimination of the tariff on meats and asserting that the high price of living is due to the high tariff. The action of the trust in raising the price on beef to its present cost was declared an outrage.

D. J. Haley, secretary of the association, declared that there is an abundance of meat in cold storage, but that so long as the public put up with the beef trust's steady raising of the price, the big packers will continue to cry "scarcity of meat" and boost the cost to retailers.

BOARD OF TRADE TO
VISIT LISTMAN MILL

Tomorrow afternoon the committee of the board of trade on advertising and publicity, manufacturers and finance will visit the Listman mill. These are the official committees of the board which have been making visits to the principal factories in the city. Everyone who is interested in this work is invited to go along with the committees. Secretary Utermoehl urges that all who wish to make the visit be at the corner of Fourth and Main streets at 2:30 o'clock sharp, so that there will be no delay.

PLAYING FOR TOM
MORRIS CUP TODAY

The greater number of the golf clubs in the Western Golf association are this afternoon playing for the Tom Morris cup, given in honor of the famous Scot who died a few years ago. Teams of eight men compete for the trophy which was won by Denver last year. The local team consists of F. P. Hixon, J. M. Hixon, E. J. Evans, F. H. Hankerson, G. W. Burton, P. M. Gelatt, Alfred James and H. J. Hirschheimer.

HOLD OPERATION OF

CONSUMERS WILL
ORGANIZE HEREMeeting Called for Tomorrow
Night at City Hall
to Perfect the
League

The organization known as the "Consumers' League," which received its first local impetus at the time of the convention of Women's clubs, held in La Crosse a fortnight ago, is to be an established fact, and a mass meeting of men and women for the purpose of organization will be held Thursday, 7:30 p. m., sharp, in the small council chamber of the city hall. The league aims at all benefits to be derived by working women, through legislation.

Miss Rose Purdue of Milwaukee, state factory inspector for women and children workers in Wisconsin, is in the city and will address the meeting Thursday evening. Miss Purdue's addresses on Sunday were along this line, and great interest is being shown in her "big sister" movement, which is for the aid and uplift of working girls and which will be conducted in connection with the Consumers' league.

Mrs. D. G. Whyte is the president of the local organization and Miss Gertrude Hogan, secretary-treasurer.

Mrs. B. C. Gudden of Madison, who addressed the Women's clubs on the "Consumers' League," made a strong impression on her hearers, who are convinced the time is ripe in La Crosse for a great work. All interested are urged to be present Thursday evening, and the indications point to a large attendance as many men in the city have asked to hear Miss Purdue on this subject.

The organization will be non-sectarian and undenominational, and the dues are 25 cents a year, five cents of this amount being kept for local expenses.

DAVIDSON MAY
LEAD TAFTERS

MADISON, Wis., June 15.—(Special.)—The circulation of nomination papers for Gov. James O. Davidson for his re-nomination is going on in the state, notwithstanding the governor has made no public declaration of his intentions in the matter. In the face of this fact, and of the fact that Senator Fairchild is assured of a large element of the stalwart support, the governor's best friends are whooping it up for him in a quiet but determined way, and they see a way to get him into the race at the primary. Although the recent stalwart conference in Milwaukee was careful not to commit itself to any candidate, Gov. Davidson's friends in this city, where his candidacy apparently is centering, are of the opinion that if the "campaign committee" named at the conference can be persuaded to call a regular convention the present executive can be endorsed with a whoop.

Although this movement for another "convention" has been in the air for several days in the talk of local conservative politicians, it becomes more certain with the publication today of an editorial in the State Journal of this city, entitled "Davidson or Fairchild." Undoubtedly speaking by the card, the State Journal says:

"There is irrefragable demand that Gov. Davidson head the Taft republican state ticket this fall. In northern Wisconsin he is the one choice. Throughout the state the major sentiment is for him. But Senator Fairchild is in the field. He has sustained his claims in recognition substantial by the efforts he has put forth in pressing his candidacy. In order that republicans who subscribe to the conference platform register themselves effectively at the primaries, they must join forces in the support of one candidate for the governorship. This can be done only by submitting the cause of the candidate to a tribunal that fairly represents those republicans. And such a tribunal will be a regularly constituted Taft republican convention."

The man endorsed by the convention would be entitled to the full support of the Taft republicans at the primaries—be that candidate Senator Fairchild or Gov. Davidson or some other candidate. . . . Holding such a convention is the only course by which present divisions can be eliminated.

The editorial closes with the observation that the saving of expense entailed by a regular primary campaign to the contestants alone warrants the holding of a convention. Gov. Davidson continues to remain silent as to his plans, but he has not requested that his friends desist in their circulation of his nomination papers.

FANS BELIEVE
GOODALE "NIGGED"

KANSAS CITY, Mo., June 15.—Whether Al Goodale, who met Billy Papke here last night in what was scheduled to be a ten round bout, was knocked out or scared out will probably never be known.

The end of the fight came a little over a minute after the beginning of the second round. Papke put a right to the chin when they came to the center and Goodale went down for the count of nine. When he arose Papke tapped him once or twice and Goodale sank to his knees, although the spectators say the blows would not have hurt a cat.

WATER EXPERTS
TEST LOCAL SOIL

Goodwin and Harper Are Obtaining Information and will Make Report Later

Messrs. Goodwin and Harper of Kansas City, Mo., water experts employed by the city to make a thorough investigation of the water conditions in La Crosse and submit a report, showing whether the river or the well system are the most feasible for the needs of this city, have spent three days here and returned to Kansas City today.

This morning the two experts, accompanied by City Engineer George Bradish, went to Myrick park where the soil was examined and samples will be taken to Kansas City for further analysis. Samples of water from wells and from the Mississippi river were also obtained and all information regarding the conditions here was gathered. Yesterday the two gentlemen held a conference with A. Hirschheimer and F. A. Copeland, members of the board of trade and jobbers' committees which recommended to the city that an expert be employed by the city to make a full report as to what system should be adopted in La Crosse.

The experts will prepare plans for both systems, give figures showing the cost of each and furnish all information possible regarding the soil and the best kinds of water to be used here. They will return to La Crosse in the near future but the full report will not be submitted for several months.

BIG PUGS SELL
PICTURE RIGHTS

By Max Bakthasar
SAN FRANCISCO, Cal., June 15.—As Jim Jeffries and Jack Johnson climb through the ropes to do battle on July 4, Wm. T. Ring, president of the Vitaphone Company of America, of New York, the moving picture concern, will step up and hand them \$75,000 cash apiece. Johnson and Jeffries will keep \$50,000 each, the other \$50,000 will go to Promoters Rickard and Gleason as their share.

The company will make two sets of pictures at the ringside. They will be sent by fastest express to New York and will go to Europe on the first steamer, while the second will be kept in America. Hundreds of duplicate negatives will be made from each of the two original negatives and within two weeks after the fight, villages and hamlets in the far corners of the earth will be able to witness the battle.

COURT HOUSE IS
CLOSED FOR DAY

County Officials Are Holding Their Annual Outing at Holzhammer Park

The court house is deserted today, every office with the exception of that of the sheriff being closed. The occasion for the absence of all the officials is the annual outing, which is being held at Holzhammer park about eight miles down the river. This morning the officials and the members of the county board of supervisors went to the picnic grounds in launches, the first boat leaving at 8:30 and the second at 9 o'clock. The weather was ideal for a picnic and this brought out a large delegation, many who had not notified the committee, appearing at the landing at the appointed time.

Upon arriving at the park lunch was served by Chef Neukomm and then the usual amusements were indulged in, baseball, being the leading attraction. When the noon hour arrived the picnicers were ready to partake of the fine spread prepared by the chef who never allows his party to go hungry.

The party will return home this evening.

SAYS LEGISLATION
WON'T HURT ROADS

CHICAGO, June 15.—W. C. Brown, president of the New York Central, does not agree with James I. Hill on governmental regulation of railroads. President Brown is in Chicago and refused to look pessimistically at the influence of the pending bills on the railroads of the nation.

"There will be no unfavorable effect on the eastern roads from the issuance of the recent injunctions," said Brown, speaking of the order of court by which rates between Chicago and Missouri river have been held temporarily at points lower than those to which the railways had desired to fix them.

"I have understood," he continued, "that the purpose of the injunction is to prevent the western roads from anticipating or forestalling the effect of the proposed amendments to the interstate commerce law."

"These amendments give the commission the right to postpone the date of the taking effect of the proposed increase in rates."

"This condition does not exist in the east. More than a month before any rates were filed by the eastern lines, announcement was given wide publicity that the eastern roads would on request of the interstate commerce commission, accept the conditions of the proposed amendment to the law whether it had become effective or not. They practically agreed that the commission after investigation might determine the date when the new tariffs should become effective."

"Exceedingly drastic," was Mr. Brown's comment on the railroad bill reported out of conference yesterday. "This bill," he said, "goes further in the way of federal regulations of railroads than anyone would have dreamed possible five years ago. The power given the commission over the railroad rates is almost unlimited and unwisely exercised might work great injury to the roads and to the business of the country generally."

"However, I feel no apprehension on this score. I believe that the interstate commerce commission will execute the law wisely and conservatively and will deal justly with every question that may come before it. So far as the interests I represent are concerned, I am satisfied to accept the decision of the commission on any question on which the road and its patrons fail to reach a satisfactory settlement."

"I do not admit that there is any influence now in the country that will cause traffic congestion this winter."

PACKET SIDNEY
DELAYED ON TRIP

The Diamond Jo packet Sidney, which is making her first trip of the season, arrived at La Crosse shortly after 11 o'clock this forenoon, twelve hours behind schedule time. The steamer left St. Paul yesterday morning and was due to arrive here at midnight. The low water and the sandbars have made it difficult to make fast time.

CONGRESS GIVES MR. TAFT TITLE

Summing Up Shows President Passed Only Part of the Laws He Wanted

WASHINGTON, D. C., June 15.—With final adjournment of congress near at hand, there is considerable looking backward today by the statesmen on capitol hill and much talk of deeds that have been done and the bills that have been done up.

Interest centers, of course, in the Taft legislative program and the general opinion is that congress has not been generous to the chief executive.

Congress started the big wheels of the legislative machine on December 6 with apparent good will toward all men and more especially toward the president. Mr. Taft, in messages and informally submitted recommendations for the passage of bills on eighteen subjects of legislation. Of the bills on these subjects introduced some have been much considered, some a little and many have been buried in the archives of various committees. None has yet reached the statute books.

Five Bills Make Good

Five numbers on the program, however, are certain to be carried out and friends of the president say that their importance makes a good showing.

The railroad bill will be passed in a few days, minus several important features advocated by the president.

A bill authorizing the president to withdraw public lands from entry has passed the house and another bill on the same subject is near passage in the senate. They will have to go through the hands of a conference committee.

The two branches of congress have passed postal savings bank bills that conflict in many particulars, but the difference will be settled without much trouble, probably by the acceptance of the house bill by the senate.

A measure providing that the government shall dispose separately of agricultural land underlain with coal will be ready for the president's signature in a few days.

A bill for the admission of Arizona and Mexico to statehood has passed the house and another is pending in the senate but whether further action will be taken is a question.

Ship subsidy stirred up a scandal in the house and is done for in this session.

Victory For Taft

The action of congress in appropriating \$250,000 for a tariff board was a victory for the president. His request that liberal provision be made for the investigation of conditions in this country and abroad bearing on the tariff was strongly resisted by some legislators. Taft was determined, however, and by insistent argument mustered a large majority in favor of the proposition.

Federal incorporation was proposed in a bill introduced in both branches of congress. A bill to regulate the issuing of injunctions appeared in the house but did not get serious consideration.

Nine bills bearing on conservation were presented at the instance of the president, but seven of them were destined never to see the light. A bill to issue \$30,000,000 worth of government securities to assist the reclamation projects passed the senate but was sat upon in the house by Chairman Payne of the ways and means committee.

A bill for the improvement of the government in Alaska was introduced in both houses but not passed. In the senate the bill when presented became the center of a mob and was withdrawn.

NEGRO APPOINTED AS NEW MINISTER

DR. WILLIAM D. CRUM.

WASHINGTON, D. C.—Dr. William D. Crum, a prominent negro of Charleston, S. C., has been nominated by the president to be minister-resident and consul general at Monrovia, Liberia. It is understood that no opposition will be made to his confirmation. In fact, it is believed southern senators will urge expedition as he will be going to a negro community.

TAFT'S NOMINATIONS

WASHINGTON, D. C., June 15.—The president nominated:

Arba S. Van Valkenburgh to be U. S. district judge for the western district of Missouri.

Edward M. Reinhardt to be U. S. marshal for eastern district of Missouri.

EIGHT NURSES ARE GIVEN DIPLOMAS

Annual Graduation Exercises Held for the La Crosse Hospital Last Night

For the eighth time a class of nurses has graduated from the La Crosse hospital. Last evening eight nurses received their diplomas, after having completed their three years' course. The program was somewhat different this year, the affair taking place at the Masonic temple instead of at the hospital as in the past. A banquet was held and music, short addresses and an informal reception was held. The banquet was given under the auspices of the Woman's Auxiliary of the hospital.

The banquet was served in the small dining room at the temple, the guests being seated at four long tables, which were beautifully decorated with flowers. A four-course dinner was served.

Following the dinner a brief program was carried out. President A.

ROADS MUST NOT DISCRIMINATE MORE

WASHINGTON, D. C., June 15.—By a decision made public by the interstate commerce commission the Colorado Coal Traffic association of Denver wins a victory over the Colorado and Southern Railway company and the Chicago and North-western Railway company. The roads are directed by the commission to charge no more for the transportation of coal from the Walsenburg district of Colorado than they charge from the Rock Springs, Wyo., district to all points on the line of the Chicago and Northwestern Railway company in Nebraska from Chadron as far east as Stuart.

To every lady attending Dr. Flint's Entertainment at La Crosse Theater tonight will be presented a beautiful Silver Souvenir Tea Spoon.

Hirshheimer presided and addresses were delivered by John M. Holley and Mr. Hirshheimer. Rev. W. P. Cunningham offered a prayer. Mrs. Grace Norbeck sang a solo and Frederick Greenwood played several violin solos. Prof. Harry Packman acting as accompanist.

The diplomas were distributed by Rev. Mr. Cunningham to the following members of the graduating class: Misses Lollie Deininger, Elizabeth Judkins, Sena Sherin, May Lehman, Josephine Nimocks, Anna Miller and Lucina Joy.

MANY CONGRESSMEN TO ATTEND MEETING

Mayor Sorensen has not as yet announced the delegates to attend the annual convention of the Upper Mississippi River Improvement association to be held at St. Paul, July 12 and 13, but a committee of three will go as representatives of La Crosse. The complete program for the meeting will be announced this week.

Among those who have informed President Wilkinson of their intention to be present if possible are: Senator Moses E. Clapp and Representatives Clarence Miller, Halvor Steenerson, Frank M. Nye, James A. Tawney and Fred Stevens, of Minnesota; John J. Esch, Arthur W. Kopp and W. J. Cary, of Wisconsin; Martin B. Madden, James McKinley and A. L. Sabath, of Illinois; A. F. Dawson, Gilbert N. Haugen and N. F. Kendall, of Iowa.

Efforts are also being made to secure the attendance of John Barrett, director of the bureau of South American republics. W. K. Kavanaugh, president of the lakes to the gulf harbor congress, and Captain J. F. Ellison, secretary and treasurer of the national rivers and harbors congress, will read papers. Major

HARVESTER TRUST DENIES CHARGES

JEFFERSON CITY, Mo., June 15.—The International Harvester company of America has filed its brief with Judge Theodore Brace in the suit brought by Attorney General Hadley in 1907 seeking to oust the company from Missouri, on the grounds that it was a trust, operating in restraint of trade.

The harvester company contends in its brief that it was organized for the lawful purpose of manufacturing agricultural implements on a large scale and not to restrain trade or limit production. It points out that no plant has been dismantled or closed down when taken over by the International but enlarged and the output increased.

S.S.S. CURES SKIN DISEASES

The skin is composed of two distinct layers. One is known as the epidermis, or outer skin, which has no fibres, and serves principally as a covering to the body, and a protection from outward dangers to the delicate flesh beneath. The other layer is known as the derma, or true skin, and is composed of elastic fibres, fat tissue, glands, lymphatics, nerves, etc. The thousands of tiny veins and arteries with which it is interlaced constantly supply every fibre and tissue with healthful properties from the circulation to keep the skin smooth and perfect.

This is changed, however, when the blood becomes infected with humors, acids or impurities. Instead of constantly supplying rich, nutritive properties to the skin, the circulation deposits the acid impurity with which it is contaminated, into the sensitive fibres and tissues. This causes irritation and inflammation, which splits or breaks the thin outer cuticle, while the tissues beneath ulcerate and discharge upon the surface in the form of Eczema, Salt Rheum, Tetter, etc. There is likewise a dry form of skin diseases, such as Acne, Psoriasis, etc. In these various cases, causing them to swell and protrude to the outer surface. Pimples, rashes, eruptions and like troubles, are all dependent on imperfect blood, and no one can have a good complexion, free from humiliating blemishes, unless the skin is kept healthy by good blood.

S.S.S. cures Skin Diseases of every kind by neutralizing the acids and removing the humors from the blood. It cools the acid-heated circulation, builds it up to normal strength, multiplies its rich, nutritious corpuscles, and adds to its purity in every way. Then the skin, instead of being irritated, inflamed and diseased by acidities, is nourished, soothed and softened by a cooling, health stream of blood. S.S.S. is the greatest of all blood purifiers, and therein lies its ability to cure skin diseases. Book on Skin Diseases and medical advice free.

S.S.S. CURED HER.

Some time ago I was troubled with a severe skin affection called Acne. Small pimples would appear on my face and neck which would in time fester and become inflamed. My complexion was muddy and sallow and most unsightly. I wanted to read about S.S.S., and concluded to give it a trial; the result was entirely satisfactory. My complexion soon became clear, the pimples disappeared, and my skin became soft and smooth. I cannot too highly recommend S.S.S. to any who are likewise afflicted.

La Crosse Wallops Red Wing by Hitting at Opportune Moments; the Score Is 5 to 3

TEAM LEAVES FOR WAUSAU

Will Play Three Games There and Return Here for Series with Rochester and Winona

Red Wing, 3. La Crosse, 5. It was a hard game for J. Mique Malloy, erstwhile manager of the Red Wing Manufacturers, to stow away in the lost column, as they had outbatted the Outcasts. The La Crosse hits, however, came at the most opportune moments of the game being combined with bases on balls and errors by the Indians, which, sad to relate, were rather numerous. Mique, however, is consoled himself with the fact that he won one out of the six games from La Crosse, and he seems satisfied with the net results.

By Prater, a few days ago with the Killianites, fed the pellet for the battle and performed in a noble manner, keeping his hits well scattered. His fielding, however, was loose.

McKee, also formerly with Winona, hooked up in the pastime yesterday with his former teammate and while he allowed less hits he donated more free walks to first, several of which were responsible for runs.

The crowd was small but appreciative and they made up in rooting what they lacked in numbers. "Pull 'em up, Mique," and "Now all together," was the popular cry when Malloy came to the plate to bat, at the same time going through the familiar last year motions of elevating his trousers.

The scoring started in the second round, Griz, who had hit to center field and had been advanced to second on a sacrifice by Swanson, counted when Thomas beat a throw to first from Wais' mit.

The Outcasts came back gamely and Kuehn, who had hit to left field out of Malloy's reach scored on a two bagger in center by Connell.

Then Red Wing added another in the next round. Malloy received a pass to first, went to second on a wild pitch and scored after two men were out on a hit to left field by Demmer.

The Outcasts tied it up again, however, in the same round. Safford hit to third base and when Zalusky slammed to Gregory, the ball went through his legs and then Demmer in right field failed to stop it and fleet Joe on the sacks had reached home, tying the score again. Red Wing was not to be outdone and they came back with another in the next round. Swanson beat out a ground hit to third base which took a bad bound, and after the next two men fled out, scored on a timely double by McKee in center field.

In the fifth Ward and Wais scored the winning runs for the local aggregation. Connell grounded out to third and Ward drew a base on balls, also stealing second. Wais slammed a fast one which Griz failed to locate. Ward scoring on the bingle. Thomas attempted to catch Wais stealing second, made a bum heave, the pellet going into center field. Fleet Footed Billy scored. Safford, who had hit to third, was caught at second. Zalusky hit to right field and Klein ended the scoring by flying out to Swanson.

In the seventh round Ward, who had been walked to first brought in the last run. With Connell out Wais

Winona Wins Easily
EAU CLAIRE, Wis., June 15.—Winona won a listless game yesterday, 9 to 1, by hard hitting and all around superior play. Crangle and Davey both stole home in the second. Winona stole bases almost at will, getting seven in all. Baillies itched a fine game. Eau Claire's only run coming in on a walk to Kick, wild

Each lady attending Dr. Flint's Entertainment at La Crosse Theater tonight will be presented with a beautiful Silver Souvenir Tea Spoon.

Notes of the Diamond
Ward was the principal base thief in the game yesterday stealing a total of three sacks, which looks bad for one Mr. Thomas, catcher, for the Red Wing team.

Safford was the hitting star of the game yesterday getting three safe swats in three times at bat, perfectly perfect, wasn't it?

It was a slow game to watch but there were several spurts of real baseball with the pep in it, that looked good to the fans.

The team left last night for Wausau to cross willows with Carl Bond's aggregation again.

The Duluth Evening Herald says, "In some circles of this league Doll of the La Crosse team has the reputation of being a real tough boy. He will get over it." We never could see that about Shorty in any manner.

Umps Agur, who has yet to put in an appearance here, was formerly a professional ball player according to statement having played the game since he was fifteen years. The little fellow is getting away good according to reports.

There is joy in the camp of the White Sox. They are winning from Superior and Darby is recovered his batting eye and is getting two and three hits per game.

The team will return next Saturday for the game with Rochester. This will be the Surgeons first appearance in this city. Jack Corrigan will make his initial bow here in the managerial role and the fans should turn out to see the contest.

The attendance during the past series has been but fair. Sunday a large crowd turned out but on Monday and Tuesday you could flop a house down in the empty seats of the grand stand.

GIANTS PUSHING CUBS FOR FIRST PLACE

Two of the Giants' crack players, whose clever fielding and timely hitting have done much to put New York close to the top in the National league. At left: Center Fielder Seymour, crack outfielder and batsman; at right: Second Baseman Doyle, who is counted one of the headiest batters in either league.

RED SOX SECURE COLLEGE PITCHERS

BOSTON, June 15.—Chris Mahoney, the Fordham pitcher, who yesterday defeated Harvard here, is to join the Red Sox bunch of twirlers. The Red Sox have also secured another college pitcher in Buckle of the University of Illinois.

\$150,000 OFFERED FOR FIGHT PICTURES

(By Max Balthasar.)

SAN FRANCISCO, Cal., June 15.—Wm. T. Rock, of New York, agent of a moving picture corporation, today offered \$150,000 for the moving picture rights of the Jeffries-Johnson battle. This is the largest offer yet received, and it is being considered seriously. The moving picture people offer to assume all responsibility from the time the fighters enter the ring.

Jeffries and Johnson formed a corporation to handle the picture, they to pay Rickard and Gleason one-third of the profits. As this corporation would give Johnson and Jeffries an equal voice in the matter of showing the pictures, a serious deadlock was feared, and it is probable a straight offer for the rights will be accepted. If the \$150,000 offer is taken, Jeffries and Johnson will, under their agreement, get \$50,000 each, while Rickard and Gleason will split the other \$50,000.

SCHARDT ALLOWS 15 HITS FOR MUDDHENS

TOLEDO, O., June 15.—Big Bill Schardt, who has been twirling magnificent ball all season, was sadly amiss in the game yesterday, allowing the locals 15 hits. Toledo winning by a score of 8 to 5. The score: Toledo 12122000—8 15 3
Milwaukee 000000104—5 10 3
Batteries—Owen and Abbott; Schardt and Ludwig.

COULON MAY BOX PATSY BRANNIGAN

CHICAGO, June 15.—Johnny Coulon, claimant of the world's bantam weight championship, is in Chicago from New York where he met four eastern fighters. Coulon has an offer to box Patsy Brannigan of Pittsburg in Milwaukee June 26 and will probably accept. He would rather make a match with Monte Attell to fight on the coast but says Attell has so far refused to make weight and he will not concede a pound over the bantam weight limit and says he can fight and be strong pounds below it.

LAST HIGH GAME NEXT SATURDAY

Friday afternoon the high school and faculty baseball teams will play the last game of the season at League park. This will be a good contest, both nines being well matched, the faculty team having won the championship of the Liliertary league. Ray will probably pitch for the highs, and Hodgson for the profs. The game will be played at League park in order to get the best available grounds for fast play.

REDMOND NOW IN BIG ONES' CLASS

MILWAUKEE, Wis., June 15.—An effort is being made to match Battling Nelson and Jack Redmond, who gave Ad Wolgast a hot fight here last week. If Wolgast refuses to give Nelson a return match as soon as he recovers from the injury sustained in his match with Redmond, the chances are that lightweights will be brought together here soon.

W. J. FOYE WINS AT SKOKIE GOLF CLUB

CHICAGO, June 15.—W. J. Foye of Omaha will take back with him the American Lumberman cup which he won for the second time yesterday at the Skokie Country club with a total of 83 strokes, one less than he took last year at Homewood.

OLDFIELD AT MINNEAPOLIS

CHICAGO, June 15.—Barney Oldfield is here with his record-breaking car, resting up for his next flight against time. He said his next engagement will be at the Minneapolis fair grounds, June 22 to 25, when he will attempt to lower the mile circuit track record, which is now :50 4-5.

When You Told Your Plumber

"Now get your prices down, the cheapest man gets the job," you forced out the quality. It was the only way to get your job. You'll seldom find us the cheapest (?) in price, but our constant aim always is to do the very best kind of work. This plan is best for both customers, and ourselves.

New York Stocks

NEW YORK, June 15.—The stock market opened with a strong tone today, scoring fractional advances in nearly everything dealt in.

11 a. m.—The strong tone became more pronounced during the last half of the first hour, when the entire list rose vigorously with an unusual degree of uniformity.

Government bonds unchanged; others firm.

Noon—After the first hour trading slackened off materially and with the falling off of business prices also receded.

2 p. m.—In the afternoon Reading lost all of its early gain and was followed by other important railroads and industrials.
